22. Members may note that the copy of the Notice of Annual General Meeting and Annual Report for the financial year 2023-24 is available on the Company's website www.vistamar.com; websites of the Stock Exchanges i.e. BSE Limited at www.bseindia.com and Notice is also disseminated on the website of RTA (agency for providing the Remote e-Voting facility and e-voting system during the AGM) i.e. www.evoting.purvashare.com. The Members can attend and participate in the Annual General Meeting through VC/OAVM facility only.

THE INSTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING AND E-VOTING DURING AGM AND JOINING MEETING THROUGH VC/OAVM ARE AS UNDER:

23. The remote e-voting period begins on **Monday 16th September, 2024 at 09:00 a.m. (IST)** and ends on **Thursday 19th September, 2024 at 05:00 p.m. (IST)** During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) on **Friday 13th September, 2024** may cast their vote electronically. The voting right of shareholders shall be in proportion to their share in the paid up equity share capital of the Company as on the cut-off date, being **Friday 13th September, 2024**. A person who is not a member as on the cut-off date should treat this Notice for information purposes only. The e-voting module shall be disabled by Purva for voting thereafter.
24. A person, whose name is recorded in the Register of Members or in the register of beneficial owners maintained by the depositories as on the cut-off date i.e. **Friday 13th September, 2024**, only shall be entitled to avail the facility of e-voting.
25. Members who are holding shares in physical form or who have not registered their email address with the Company/ RTA or any person who acquires shares of the Company and become member of the Company after the notice has been sent electronically by the Company, and hold shares as of the cut-off date i.e. **Friday 13th September, 2024**, such Member may obtain the User ID and password by sending a request at support@purvashare.com.
26. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
27. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

28. In terms of SEBI circular no. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Management Discussion and Analysis Report for the year ended 31st March, 2024

The Management of VISTAR AMAR LIMITED presents its Analysis report covering performance and outlook of the Company. The Management accepts responsibility for the integrity and objectivity of the financial statements. However, investors and readers are cautioned that this discussion contains certain forward looking Statements that involve risk and uncertainties.

Economic Review

1.1 Global Economy

The world economy is projected to maintain a steady growth rate of 3.2% throughout 2024 and 2025, mirroring the momentum observed in 2023. Amidst a dynamic global economic landscape, the emergence of inflationary pressures prompted a tightening of monetary policies across various regions. As a result, capital inflows in most nations have remained sturdy.

Following the peak of global inflation in mid-2022, economic activity has steadily expanded. There is stability in employment and income growth leading to favourable demand dynamics. This includes substantial government expenditure and household consumption, alongside an expansion in supply, supported by unexpected increases in labour force participation. Major advanced economies have stayed on track with their growth trajectories path despite significant adjustments in central bank interest rates. Risks are now broadly balanced, and households are observed tapping into their savings.

Outlook

As inflation moves closer towards targeted levels and central banks in several economies adopt a more relaxed policy stance, the implementation of tighter fiscal measures, aimed at addressing elevated government debt, is expected to potentially dampen growth prospects.

Projections indicate a decline in global headline inflation, with an estimated annual average of 6.8% in 2023, moderating to 5.9% in 2024 and further to 4.5% in 2025. Advanced economies are expected to reach their inflation objectives sooner compared to emerging markets and developing economies. A plausible growth acceleration is expected in G20 emerging markets that could support global growth and, with a positive correlation, affect the growth in other countries. Strengthening policy frameworks to absorb any potential shocks is needed.

1.2 Indian Economy

Despite considerable global disruptions, India recorded a strong growth rate of 7.6% in FY 2023-24, improving upon the 7% growth achieved in the previous fiscal year, FY 2022-23. This growth rate stands as the highest among both advanced and emerging economies globally. The growth has been primarily supported by a targeted monetary policy aimed at maintaining inflation within the target levels, which has been crucial in promoting sustainable growth over the medium term. This policy has not only stabilised the economy but also increased consumer confidence, leading to higher demand across multiple sectors.

Moreover, capital expenditure saw a significant boost, increasing from H10.5 lakh crore in FY23 to H12.7 lakh crore in FY24. This surge in spending has catalysed private investment and expanded economic activities across the country. The economy further benefited from a solid foundation of domestic demand, majorly driven by continuous private consumption and enhanced public infrastructure projects. Together with prudent fiscal management and strong tax revenue performance, these factors have laid a strong foundation for continued economic growth.

Outlook

The economic forecast for India in fiscal year 2024-25 is highly optimistic, with the GDP expected to grow by around 7%4. This substantial growth is driven by major infrastructure investments, supported by solid fiscal strategies and ongoing policy improvements. The growing workforce and focused development in smaller cities are poised to boost demand in critical sectors such as transportation, real estate, and consumer goods, which are crucial for long-term economic stability and growth. Internationally, as economic conditions improve and developed nations adopt more relaxed monetary policies, India is likely to attract more private investments. This increase in investment is expected to enhance exports and stimulate additional economic activities, which could help reduce the fiscal deficit more swiftly. Although inflation remains a concern due to high consumer demand and rising food prices, increased private sector investment is expected to help stabilize prices and maintain economic momentum.

Industry structure and developments

Fisheries sector plays an important role in the Indian economy. It contributes to the national income, exports, food and nutritional security as well as employment generation. Fisheries sector is recognized as the 'Sunrise Sector' and is instrumental in sustaining livelihoods of around 30 million people in India particularly that of the marginalized and vulnerable communities.

Beyond its delectable taste, 'fish' holds a profound significance in the Indian context, contributing to rich cultural significance and multiple health benefits. The intricate relationship between fish and Indian culture goes beyond the plate, influencing traditions, health practices, and economic prosperity. Consumption of fish has the potential to positively impact not just individual nutritional status but also contribute to the food and nutritional security of the country.

India's fish market is thriving, primarily due to its significant export potential with a substantial growth in both domestic consumption and fish exports. The market growth can be attributed to factors including changing lifestyles and growing awareness of fish as a healthy option with high digestible protein, cholesterol-lowering qualities, and PUFA.

India's seafood exports achieved a record high in volume for the financial year 2023-24, overcoming challenges in major export markets like the USA, EU, and the UK. Frozen shrimp continued to be the top export item, both in quantity and value. The United States and China remained the largest markets for Indian seafood. India's seafood export sector has demonstrated resilience and growth, achieving a record high in export volumes for FY 2023-24. With ongoing initiatives to enhance value addition and processing capabilities, India is poised to further strengthen its position in the global seafood market.

According to a new report by EMR titled, 'India Fish Market Report and Forecast 2024-2032', the India fish market size reached approximately INR 1,881.84 billion in 2023. The market is projected to grow at a CAGR of 11% between 2024 and 2032, reaching a value of around INR 4,813.81 billion by 2032.

India is the third largest fish producing country in the world accounting for 8% of global production and contributing about 1.09% to the country's Gross Value Added (GVA) and over 6.724% to the agricultural GVA. The sector has immense potential to grow hence calls for focused attention through policy and financial support for sustainable, responsible, inclusive and equitable growth.

Our Company, "Vistar Amar Limited" is engaged in processing of fish and fish related activities. Our commitment to excellence has earned us a leading position in the market. As we continue to excel in the processing of fish business, we remain focused on delivering excellence, innovation, and value to our customers and stakeholders. With a strategic vision and unwavering dedication, we are poised to lead and thrive in the competitive seafood market and is continued to progress in utilizing all the opportunities during 2024-2025.

Other Opportunities and Strength

The global seafood market has been witnessing a continuous uptick in recent years riding on recognition of its benefits to health. The growing awareness of the health benefits of seafood, with its nutritional and protein content, presents a favorable environment for increased consumption.

Health experts promoting seafood as healthier alternative further contributes to the market's potential. Additionally, the rising purchasing power of the middle class and their desire for diverse food choices create opportunities for the seafood industry. India, with its long coastline, farming community, and availability of land and labor, has emerged as a major player in the global seafood industry. The marine Products Export Development Authority (MPEDA), under the Union Ministry of Commerce, has drawn up a plan to achieve marine products exports worth Rs. 1 Lakh crore by 2025, showcasing the government's commitment to supporting and promoting the industry's growth. But to mitigate the risks associated with excessive reliance on exports, there is a need to focus on promoting and expanding domestic consumption and markets. The company's performance over the past years, with increased top-line growth, is a testament to its readiness to tap into domestic opportunities and adapt to market dynamics.

Other Opportunities and Strength

- I. The Company is expecting a good season ahead.
- ii. Experienced Promoters and Management
- iii. Strong Relationship with reputed institutional customers
- iv. Fully indigenous plant. Experienced Marketing Team

Management's Responsibility for the Financial Statement

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statement that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statement, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statement

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statement. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statement, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statement may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statement.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statement of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

ANNEXURE – B TO THE INDEPENDENT AUDITOR'S REPORT

The Annexure referred to in paragraph 1(A)(f) under “Report on Other Legal and Regulatory Requirements” section of our report of even date, Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of VISTAR AMAR LIMITED (“the Company”) as on 31st March, 2024 in conjunction with our audit of the financial statement of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by ICAI (the “Guidance Note”) and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statement for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statement.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Vistar Amar Limited (the "Company") was incorporated on 07 October 1983, under the Companies Act, 1956. The Company's principal activity is manufacturing of fishmeal. The registered office of the Company is located at C/o Amarsagar Seafoods Pvt Ltd. Survey No.29 Paiki 1, Jawar Naka, Porbandar 360575. The Manufacturing facility of the company is at Plot/Phase No.45/2, At Bhalpara GIDC, Tal. Veraval, Dist. Gir Somnath, Gujarat - 362266

The financial statements of the Company for the year ended 31 March 2024 were authorised for issue in accordance with resolution of the Board of Directors on 21/05/24

Note 2 Significant Accounting Policies**i Statement of Compliance**

The Financial statement of the company have been prepared in accordance with Indian Accounting Standards(IND AS) notified under the Companies (Indian Accounting Standards) (Amended) Rules, 2016. The Company have adopted IndAS with effect from 1 April 2017 in accordance with the notification issued by the Ministry of Corporate Affairs.

ii Basis of Preparation

"The financial statements of the Company have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") notified under the Companies (Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) amendment Rules, 2016.

The financial statements have been prepared under the historical cost convention with the exception of certain financial assets and liabilities which have been measured at fair value, on an accrual basis of accounting.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

All the assets and liabilities have been classified as current or non-current, wherever applicable, as per the operating cycle of the Company as per the guidance set out in Schedule III to the Act.

The Company's financial statements are reported in Indian Rupees, which is also the Company's functional currency, except when otherwise indicated."

iii Accounting Estimates

The preparation of the financial statements, in conformity with the recognition and measurement principles of Ind AS, requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognised in the period in which they are determined.

iv Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

v Property Plant and Equipment

All Property, Plant and Equipment (PPE) are stated at cost of acquisition or construction less accumulated depreciation and impairment losses, if any. Cost comprises purchase price (Net of Goods and service tax credit wherever applicable), import duty and other non refundable taxes and levies and any directly attributable cost of bringing the asset to its working condition for the intended use. Subsequent expenditure related to an item of assets are capitalise to the asset only if it increases the future economic benefits from the existing asset beyond its previously assessed standard of performance. Borrowing costs attributable to acquisition, construction of qualifying assets are capitalized until such time as the assets are substantially ready for the intended use. Other pre-operative expenses for major projects are also capitalised, where appropriate.

The Company identifies cost of each component has cost which is significant to the total cost of the assets, has useful life that is materially different from that of remaining asset.

The PPE which are not ready for the intended use before reporting date are disclosed under Capital work-in-progress. Depreciation on Property Plant and Equipment is calculated on written down value (WDV) method using the rate arrived at based on the useful life as specified in Schedule II of the Companies Act, 2013.

Depreciation on assets acquired/disposed of during the year is provide on prorata basis with reference to the data of addition/deletion.

vi Intangible Assets

Intangible assets acquired separately are measured on initial recognition cost. Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses. Intangible assets are amortised using written down method.

vii Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

viii Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

ix Inventories

Inventories are valued as follows:

i Finished goods:

Lower of cost and net realisable value. Cost of inventories includes cost incurred on acquisition of material, cost of conversion and other costs. i.e. cost incurred to bring the material to its present location and condition.

ii Stores Spares, Chemicals, Packing material and fuels:

At lower of cost or net realisable value. Cost is determined on first-in-first-out basis. In case of stores & spares, chemicals, packing material and fuel, net realisable value is estimated current procurement price in the ordinary course of the business.

x Deferred tax assets

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

xi Financial Instruments**a Financial Assets****Initial Recognition**

In the case of financial assets not recorded at fair value through profit or loss (FVPL), financial assets are recognised initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

Financial Assets at Amortised Cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the effective interest rate ("EIR") method. Impairment gains or losses arising on these assets are recognised in the Statement of Profit and Loss.

Financial Assets Measured at Fair Value

Financial assets are measured at fair value through other comprehensive income ("OCI") if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the Statement of Profit and Loss.

Financial asset not measured at amortised cost or at fair value through OCI is carried at FVPL.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies the expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets and credit risk exposures.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the Statement of Profit and Loss.

De-recognition of Financial Assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

b Equity Instruments and Financial Liabilities

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs. Equity instruments which are issued for consideration other than cash are recorded at fair value of the equity instrument.

Financial Liabilities**Initial Recognition**

Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, loans and borrowings and payables as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below

Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. However, the company has borrowings at floating rates. Considering that the impact of restatement of effective interest rate, year on year due to reset of interest rate, is not material and hence the company is amortising the transaction cost in straight line basis over the tenure of the loan. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the transaction cost amortisation process. This category generally applies to borrowings.

Financial liabilities at FVPL

Financial liabilities at FVPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the Statement of Profit and Loss.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Where the Company issues compulsorily convertible debenture, the fair value of the liability portion of such debentures is determined using a market interest rate. This value is recorded as a liability on an amortised cost basis until extinguished on conversion of the debentures. The remainder of the proceeds is attributable to the equity portion of the instrument. This is recognised and included in shareholders' equity (net of income tax) and are not subsequently re-measured.

Where the terms of a financial liability is re-negotiated and the Company issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in the Statement of Profit and Loss; measured as a difference between the carrying amount of the financial liability and the fair value of equity instrument issued.

De-recognition of Financial Liabilities

Financial liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

c Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

xii Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three month or less, which are subject to an insignificant risk of changes in value.

xiii Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Also, the EIR amortisation is included in finance costs.

xiv Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognised.

a Sale of Goods

Revenue from sale of goods is recognised when significant risk and reward of ownership of goods are transferred to customer. Revenue is measured at fair value of consideration, net of returns, trade discount, rebates and taxes collected on behalf of the government.

b Other Income

Other income is recognised when there is no uncertainty as to measurement and when it is reasonably certain that the ultimate collection will be made.

c Interest income

Interest is recognised on a time proportion basis taking into account outstanding and the rate applicable.

xv Employee Benefits

Employee benefits of short term nature are recognized as expense as and when these accrue. Long term employee benefits and post employment benefits, are recognized based on actuarial valuation at year end using the projected unit credit method. Re-measurements, comprising of actuarial gain and losses, the effect of the asset ceiling(excluding net interest) and return on plan assets (excluding net interest), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods. Net interest is calculated by applying discount rate to the net balance of defined benefit liability or asset.

xvi Income Tax

Income tax comprises of current and deferred income tax. Income tax is recognised as an expense or income in the Statement of Profit and Loss, except to the extent it relates to items directly recognised in equity or in OCI.

a Current Income Tax

Current income tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

b Deferred Income Tax

Deferred tax is determined by applying the Balance Sheet approach. Deferred tax assets and liabilities are recognised for all deductible temporary differences between the financial statements' carrying amount of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted tax rates or tax rates that are substantively enacted at the Balance Sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognised in the period that includes the enactment date. Deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Such assets are reviewed at each Balance Sheet date to reassess realisation.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

xvii Earnings Per Share

Basic earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company and weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

xviii Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of obligation. Provisions are determined based on management's estimate required to settle the obligation at the Balance Sheet date. In case the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A contingent liability also arises, in rare cases, where a liability cannot be recognised because it cannot be measured reliably.

Contingent assets are neither recognised nor disclosed in the financial statements.

xix Segment information

The Company is engaged in "Fish and Fish related activities" which in the context of Ind AS 108 "Operating Segment" notified under section 133 of the Act is considered as the only segment.

B Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)
